

Vemapoint Leasing

Flexible OPEX Acquisition with Perfect Technology Protection

Technology Leasing Done Right

Your Business needs new technology yet want to stretch out expenditures over time. Traditional Leasing makes it affordable yet does not provide for protection of the equipment or the business. These are no longer issues when leasing through Vemapoint. Vemapoint's groundbreaking offerings give several options to your leasing needs with an all encompassing blanket of protection for management peace of mind.

Let's face it, acquiring technology is only one piece of the puzzle. Defending your business from threats from all sides is paramount. Vemapoint's leasing now extends several programs to address the protection of your technology spend. Four plans now allow clients to choose the program that is just right for them. The protection provided helps to address another OPEX spend in the area of monthly IT support.
